

Is FluMist® right for me?

1. Have you had an allergic reaction to eggs, egg proteins, gentamicin (a trace residual), gelatin, arginine, any of the ingredients contained in FluMist® or a previous flu vaccination?

Yes No

2. Are you under 2 or over 59 years of age?

Yes No

3. Are you under the age of 18 and receiving aspirin or medicines containing aspirin?

Yes No

4. Are you currently suffering from severe asthma or had active wheezing in the past 7 days?

Yes No

5. Are you immunosuppressed due to disease or drug treatment or associated with people who are immunosuppressed?

Yes No

6. Are you pregnant or nursing, or do you intend to become pregnant?

Yes No

7. Have you had Guillain-Barré syndrome with a previous flu shot?

Yes No

If you answer “No” to all of the questions above, you may qualify for FluMist®! FluMist® is a vaccine used to prevent the flu in adults and children between 2 to 59 years of age. As with any vaccine, FluMist® may not protect 100% of individuals. Be sure to talk to your healthcare provider to see if FluMist® is right for you.
